

Why choose a decal paper?

Decals are the first choice for high quality decoration, allowing more detailed designs and a wider spectrum of colours than direct print.

Undecorated items can also be stocked and decorated to demand instead of having an inventory of decorated products – allowing more flexibility and reduced wastage costs.

Features

- Superior waterslide decal paper
- Excellent smoothness
- Extra stiffness
- Dimensionally stable
- Fast release and superior decal mobility
- Paper available in a range of weights
- High quality, non toxic coatings
- Tested and conforms to European Toy Safety Standard EN71 part 3

Benefits

- Suitable for semi and fully automatic screen and offset litho printing
- Options available for digital UV inkjet printers
- Supports detailed designs incorporating multi-colour and the finest detail
- Superior registration and trouble free printing
- Suitable for UV drying systems
- Ability to decorate on curved surfaces with no hard edges
- Suitable for exact positioning
- Permanent decoration can be achieved by over lacquering
- Supports brand protection and anti-counterfeiting
- Allows environmentally friendly decoration
- Lower inventories of finished decoration items as decoration is on demand
